Products.

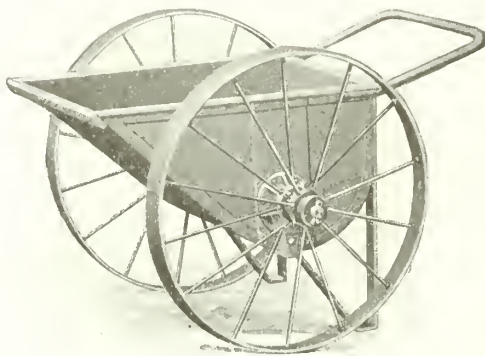

BOSS "HIGH SPEED" CONCRETE and MORTAR MIXERS; ALLEY and STREET PAVERS; GROUTERS; GASOLINE and ELECTRIC HOISTS; ELEVATORS; CONCRETE CARTS.

Also, Pumps and Wagon Loaders.

Boss Hyatt Roller Bearing Concrete Carts.

Built of steel in one size—6 ft. wet material. Made to stand up under extremely heavy work. Wheels, 36 ins.; tires, 2½ ins.; staggered spokes. Note heavy hub, reinforced sides, cold rolled steel axles, high wheels and rigid construction.

Hyatt self-oiling roller bearings make it the easiest running cart on the market. Costs no more than others.

HYATT ROLLER BEARING CONCRETE CART
Capacity, 6 ft. mixed material. Lightest running and strongest cart built

Boss "High Speed" Mixers.

Over 4000 in use. Built in sizes of 5, 8, 11, 16 and 22 ft. inside discharge; pavers and end discharge in sizes of 8, 11 and 15 ft. Gas, steam or electric power. On skids or portable. Any type charging device.

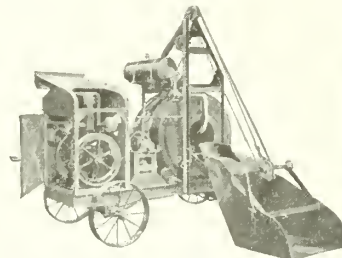

BUILT OF STEEL—By building these mixers nearly entirely of steel, from ½ to 2 tons is saved in weight, yet it is 35% stronger. Small castings and gears are eliminated. No breakdowns on the job.

PATENTED HIGH SPEED MIXING AND DISCHARGE ACTION—By a special patented easy cleaning mixing action, batch is turned over and mixed in shorter time, and is discharged in from 8 to 15 seconds, material hurling from drum in great force, increasing speed, and giving better concrete.

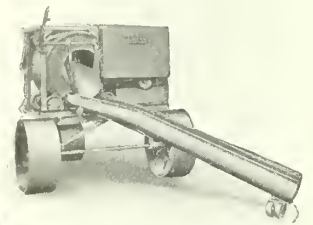

HYATT ROLLER BEARINGS—Hyatt self-oiling roller bearings used in Boss equipment, instead of babbitted boxes, saves 17% power. Need oiling only once each month. There are no cut-out boxes. Guaranteed for the life of the machine.

CAPACITIES—All sizes, from ½ to 3 bags, on skids or trucks, with power loaders, or in the low charging type. Also equipped with measuring batch hoppers.

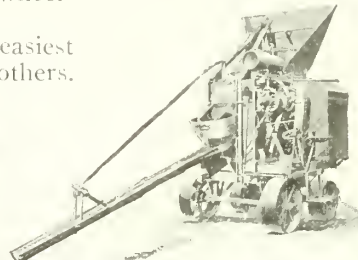

PROMPT DELIVERIES—Large stocks carried in principal cities in the United States and foreign

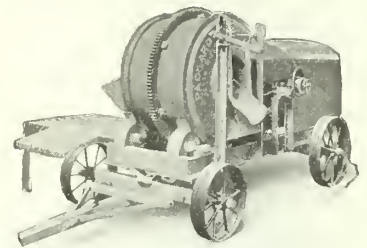

AUTOMATIC POWER CHARGING MIXERS WITH MEASURING WATER TANK

GROUTER AND END DISCHARGE MIXER

"LINCOLN HIGHWAY" ALLEY AND STREET PAVER
Made in 1-bag and 2-bag sizes. High drum. Any power

LOW CHARGING MIXER
Made in ½-bag and 1-bag sizes

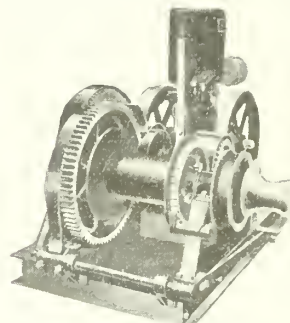

countries. Standard machines shipped in 24 hours. Expert repair service. No delays. Address nearest office for new low prices and terms.

Boss Heavy Duty Hoists.

The world's standard gasoline hoist. Built to stand up under heavy work. Lightest and most compact built. Handled like steam outfit.

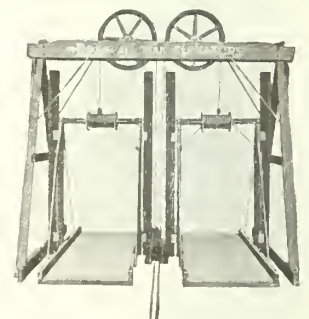

HYATT ROLLER BEARINGS—These bearings are used in the two main journals on Boss hoists. They save power and oil. Gears last longer, because they do not wear out of alignment.

TYPES—Built with single or double drum; reversing or non-reversing; either belt, gasoline, kerosene or electric power. Sheave and niggerhead, and safety ratchet standard equipment. Sizes, 4, 6, 8 and 10 h. p., with rope speed. Speed, 75 to 200 ft. per minute. Powerful brakes.

HEAVY DUTY CONTRACTORS' HOIST

Made in 4, 6, 8, and 10 h. p. sizes. Reversing or non-reversing. Gas or electric

"ALL-OAK" SINGLE AND DOUBLE CAGE ELEVATORS
